

THANK YOU & CONGRATULATIONS!

You have purchased an elite, one-of-a-kind work of art. Now, let us keep it as beautiful as the day you bought it.

Care and Maintenance of Your New Cornhole Set

General Maintenance

To keep your cornhole boards looking great, follow these simple steps:

- Boards are water resistant. However, they cannot be left outside indefinitely.
- Store boards and bags in the interior and in a dry place.
- Boards are sealed and waxed for protection. Reapply and buff wax as needed.

Repair Scratches and/or Ridges

If the board gets lightly scratched and/or ridges are present, follow these simple steps:

- Make sure your board is dry and sand smooth with 220 grit sandpaper LIGHTLY.
- After sanding and wiping free of dust with a dust cloth, apply and buff a fresh coat of furniture or paste wax found at your local hardware store.

Thank You!
